Gigantum

- Use Chrome or Firefox to open Gigantum.io and create a login.
- **Import Existing** using this zip file: Gigantum:Neurodata:RerF [Not the final version]

Demos

Data

When running your own data:

- Labels must be equivalent to $\{0, \ldots, k-1\}$, for k-classes.
- Data must be continuous, i.e. non-categorical.

Supervised Classification

Unsupervised Classification
